

HD30LA

Hotel/hospitality features

Customisable faceplate

Anti-bacterial housing

Elegant, corded analog lobby telephone

The HD30LA lobby telephone ensures flawless usability in the hotel/hospitality sector. The connection to a predetermined destination, e.g. the main desk, is made immediately after the handset is lifted, so it is no longer possible to dial the wrong

number. An analog PABX system is required for use. The lobby telephone can be fully customised thanks to the faceplate on the telephone base.

Basics and equipment

- Product information
 - Analogue lobby phone | Corded handset | PN 00007032
